

Doug Eland
President
Eland Logistics

"As a leader in the trades we service we continue to focus on strengthening existing strategic partnerships while nurturing new ones. Although leadership may start at the top, all employees and partners alike are leaders in their own domain. We build on these individual strengths and as a result become stronger as a team. After all, the end consumer is everyone's Customer."

Eland Logistics

Transportation and Logistics

Eland Logistics wants to be your supply chain manager. With a broad catalog of services and careful attention to detail, Eland Logistics is committed to using the latest and most innovative means to ensure your goods move quickly, efficiently and securely across the supply chain.

Eland Logistics was created in 1988 by Doug Eland, a logistics trained and educated entrepreneur. Eland Logistics began as 'Eland Distribution,' a one person, one room green coffee distributor that exploited a niche in the market: a chance to offer value-added services before the term 'value-added service' was ever used. Since inception, Eland Logistics has grown to a multi-warehouse facility with its head office strategically located in Brampton, Ontario. Over the years, Eland Logistics focus has expanded beyond green coffee to include a wide range of goods. In doing so Eland Logistics still continues to represent Canada's largest supply chain manager of green coffee.

Eland Logistics' competitive advantage stems from two factors: its people and its services. They employ dedicated and multi-talented individuals who aim to understand a Customer's business as well as the Customers themselves. In fact, Eland Logistics' employees refer to their Customers as 'partners' and view

Customer relations as 'strategic partnerships.'

In short, Eland Logistics offers total supply chain management. More specifically, they offer:

- International freight forwarding
- FTL and LTL transportation
- Canadian and U.S. customs brokerage
- Transport load brokering
- Warehousing
- Certified weighing
- Measuring and gauging
- Independent surveying
- Reconditioning, salvaging, and more.

Doug Eland runs his business the way he views life: with dedication, honesty and integrity. In the early 90's, while working sixteen hour days building his business, Doug remained active in the community by serving as a mentor for Big Brothers of Canada, coaching hockey, participating in charity work, even participating in the local political arena.

Partnering with Eland Logistics allows your business to grow more efficient while allowing you to feel more secure that your supply chain will remain strong, secure and connected. If you need it moved, stored, sampled, surveyed, refurbished or just cared for Eland Logistics can get the job done. Contact Eland Logistics and see how their services can benefit your business.
