

Total Supply Chain Management

► **International Freight Forwarding**

We provide global transportation services which offer a complete range of services:

- Ocean shipments from port to port, full and partial loads
- Air freight
- Flight / ship schedules
- ETD port of origin and ETA discharge port

► **Canada/U.S. Customs Brokerage**

Eland Distribution has a team of dedicated professionals to cover every port of entry in Canada and the United States. Major points of entry are staffed 24 hours a day 7 days a week.

- Document preparation
- NAFTA regulations
- Bonded warehouse entries
- Duty drawbacks
- QST/GST rebates

► **Transport Load Brokering**

With over 50 years combined experience in moving freight, we have an un-matched knowledge base to get your product to their final destination in a cost effective and timely fashion. Eland Distribution services all major points in Canada and the U.S. in every mode of transportation available.

- Highway, intermodal, or boxcar
- Full loads and LTL consolidations
- Exclusive loads and the use of specialized equipment

► **Warehousing**

With facilities servicing the Toronto, Montreal and Vancouver areas one of our warehouses is never far away.

- Stuff and destuff FCL and LTL containers.
- Palletize, stretch wrap, order picking and order consolidation
- Cross docking
- Inventory control for long and short term storage
- Food grade storage conditions
- Secure yard

► **Certified Weighers, Measurers and Gaugers**

With so much importance put on the weights and general condition of your goods upon arrival you need someone who you can trust to provide independent weights and surveys.

- Certified weights and measure
- On or offsite composite sampling
- Agricultural products or industrial goods

► **Independent Surveying**

We can help whether we are inspecting the damaged goods ourselves or working with your insurance company. We communicate information to you quickly and with our digital technology you will be able to see exactly what the problem is, ensuring your claims are processed promptly.

- Attend and inspect loading or off loading of international transport or domestic freight
- Survey reports for insurance purposes
- Photography and lab analysis
- Fumigation

► **Reconditioning and Salvage**

As unfortunate as it is damage occurs from time to time. When that happens we jump into action contacting you with the appropriate information and when necessary initiating contact with your insurance agent.

- Refurbishing of damaged goods
- Disposition of product made sound or otherwise

A Company Built on Strategic Partnerships
